Description			
salut les sysadmin !			
J'ai cette erreur :			
<pre>In template /home/mezzanine/blogenv/local/lib/python2.7/site-packages/grappelli_safe/templates/admin/change_list.html, error at line 140 Database returned an invalid value in QuerySet.datetimes(). Are time zone definitions for your database and pytz installed?</pre>			
(en détail : http://pastie.org/9633976)			
Deux pistes si vous pouvez essayer :			
<ul style="list-style-type: none">• http://stackoverflow.com/questions/21351251/database-returned-an-invalid-value-in-queryset-dates• et puis ça : http://stackoverflow.com/questions/22830689/invalid-queryset-dates-despite-having-pytz-and-mysql-timezones
